

Reading Council of Greater Winnipeg, MB  
A Council of the International Reading Association  
A Special Area Group of the Manitoba Teachers' Society

February 2025

To All Schools,

"I Love to Read Month" is a month long celebration that is held each year to encourage reading, writing, and sharing in the joy of literacy. This year's theme is "**Building Bridges**". This theme is meant to help develop deeper connections within our diverse communities, while engaging with literacy in meaningful and impactful ways.

On behalf of the Reading Council of Greater Winnipeg (RCGW), the I Love to Read Committee has prepared the attached idea calendar. The RCGW is a group of dedicated educators who meet monthly to share and work to promote knowledge and awareness of lifelong literacy and learning. Please share the idea calendar with teachers, students and their families. It would make a great addition to your school newsletter. Activities are included for students of all ages to have them explore different ways of engaging with literacy. We hope that both teachers and students will have fun with the suggested activities and that they will challenge the students to learn something new. We also hope that families will be able to share the excitement of reading and writing together.

In addition to the idea calendar, the RCGW will be making a monetary donation to the Cancer Care Unit at the Children's Hospital, so that the staff can continue to update their children's and teen's libraries and magazine subscriptions. This provides children, teens, as well as parents with reading materials that are appealing and entertaining, as well as supportive.

The RCGW thanks you for sharing this idea calendar with teachers and families. By doing so, you are helping to empower our students to change the world.

Sincerely,  
Brittany Irwin  
Chair of the I Love to Read Committee  
Reading Council of Greater Winnipeg
